GitHub Rules

Important GitHub Guidelines for Void Hacks() 6.0 Participants

Dear Participants,

To ensure a fair and seamless hackathon experience, please adhere to the following GitHub rules strictly:

1. Commit Every 3 Hours:
   - Each team must commit their code to the GitHub repository every 3 hours.
   - This ensures proper tracking of progress and fair evaluation.
   - Failure to commit within this timeframe may lead to team disqualification.
2. Repository Confidentiality:
   - The repository created by the Team Leader must not be shared with anyone outside the team or the assigned collaborators.
   - Breach of this rule will result in immediate disqualification.
3. General GitHub Rules:
   - Maintain a clean and organised commit history for easier evaluation.
   - Ensure proper use of branch management if working on separate features or modules.
   - Do not overwrite or delete work done by team members without prior discussion.
   - Respect the intellectual property of others and avoid plagiarism.

Your cooperation is essential for a smooth and enjoyable hackathon. Let's maintain a spirit of integrity and innovation throughout the event!

Best regards,
Team Void Hacks() 6.0

Steps to Be Followed

Dear Participants,

Please follow the guidelines below to ensure smooth collaboration using GitHub during the hackathon:

1. Download GitHub: Install the latest version of GitHub Desktop or access GitHub through the web at github.com.

2. Sign In: Log in to your GitHub account using your credentials. If you don't have an account, create one at GitHub Signup.

3. Repository Creation: The Team Leader will create a new repository on GitHub for the project.

4. Add Team Members: The Team Leader will add all their team members as collaborators to the repository.

5. Add Organisers: The Team Leader must also add the following organisers as collaborators for evaluation purposes:

Collaborator 1: Priyani Chourey

GitHub Id : https://github.com/PriyaniChourey

Collaborator 2: Abhigya Sharma

GitHub Id : https://github.com/abhigyaabs2

Collaborator 3: Sulekh Niwal

GitHub Id : https://github.com/Sulekh25

Collaborator 4: Harshit Nagar

GitHub Id : https://github.com/harshitnagar19

Please complete these steps promptly to avoid any delays in the hackathon process.

Best Regards,
